

**REMARKS**

Prior to this Response, Claims 1-56 were pending in the above-referenced patent application. The Patent Office required a restriction to one of the following inventions: Group I including Claims 1-14 and 27, or Group II including Claims 15-26, or Group III including Claims 28-56. While Applicant respectfully disagrees with the Patent Office's claim designations, Applicant herein has elected the group for continuing examination in this case. In response to the restriction requirement, Applicant herein elects Claim Group I (Claims 1-14 and 27) with traverse.

This provisional election is done with traverse to the extent this restriction requirement might later be shown to be misplaced, and without prejudice to the filing of possible divisional applications directed to the subject matter in the non-elected claims.

Further, in the Restriction Requirement, the Examiner asked that in claims 2-14, the word cleansing "device" should be replaced by cleansing "pad". Applicant left a voice message for the Examiner regarding addressing this issue later in response to Office Actions for substantive examination of the claims on the merits. On July 2, 2006, the Examiner left a voice message for the undersigned stating that it would be acceptable for Applicant to address this issue later in response to later Office Actions on the merits. Applicant wishes to that the Examiner for the clarification.

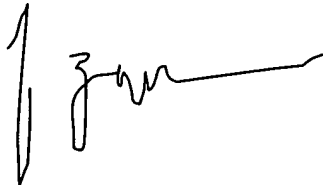

**CONCLUSION**

If the Examiner believes that telephone interview will help further the prosecution of this case, Applicant respectfully requests that the undersigned attorney be contacted at the listed telephone number.
